# SCHLEY ATTACKS THE FORTS AT SANTIAGO de CUBA HARBOR

## EARLY REPORTS OF THE BATTLE ARE FULLY CONFIRMED THIS MORNING.

New York, June 1.—Special—The report of a battle off Santiago is confirmed in a dispatch from Cape Haytien. Schley's fleet was engaged. The guns of the flying squadron began at 2 o'clock to bombard Morro and two other forts at the entrance to the bay. The cannonading was terrific, lasting two hours. It is believed many Spanish artillerymen were killed. Little damage was done to the American ships. It is not known whether or not Cervera's fleet was engaged.

Cape Haytien, June 1.—Special—At 2 o'clock yesterday Commodore Schley made a bold advance with twelve of his warships into Santiago harbor and engaged the Spanish fleet under Admiral Cervera. Morro castle, at the entrance to the bay, was silenced by a few well directed shots from the 13 inch guns of the American fleet. The aim of the gunners was splendid, and as each shell burst within the works clouds of dust and masonry filled the air. The fortification is several hundred years old, and poorly fitted to resist the terrible impact of modern guns.

In less than half an hour the guns of the forts were silenced, whereupon the American ships steamed forward. Just inside the neck of rocks at the entrance to the harbor Cervera's fleet was stationed in fighting order, showing the least possible front to the American gunners. There was not a moment's delay. First came a terrific roar as half a dozen of the great guns on the American ves-

sels belched forth their iron hail. Then the guns of the Spaniards reverberated through the defiles. The Spanish fire was not effective at first, the missiles going wide of their mark, but after two or three discharges became more accurate, and some of the Americans were hit although not seriously damaged.

The forts along the shore at every opportunity sent a shot into the midst of the American fleet. Their guns, however, were of small calibre, and did little damage. An occasional shot from one of the Americans would fall within the works of the most active of these forts, and for a time they would be silent, but would resume after an interval which had evidently been spent in rallying the forces and getting the displaced guns back into position.

At 4 o'clock the forts were practically silent and the fighting was between the opposing ships of war. The cannonading was terrific. Not one of the American ships, as the sun was going down, showed signs of being disabled, although some of them had been hard hit. Three of Cervera's fleet were lying apparently useless. Their names could not be ascertained.

The Americans had advanced farther and farther into the harbor, and were sending their fire in at short range. The Spaniards were fighting stubbornly, but evidently had much the worst of it. At dark Schley was still in the harbor, but making his way slowly towards the open sea.

Washington, June 1.—Special—Early this morning there was no official news of Schley's reported bombardment of the forts at Santiago harbor. Some officials in the navy department are inclined to discredit the news. The generally accepted explanation was that it was a counter attack to the Spanish sally of Sunday night, and incidentally to weaken the harbor defences. Schley's fleet had a slight brush with two torpedo boats Sunday night, but no damage was done. Evidently to give the Spaniards something to think about, Schley, according to reports, yesterday fiercely bombarded the principal forts at the harbor entrance. Whether or not the Americans entered the bay is not known. It is reported here that they did, but this is doubted. If he had forced the passage it is certain he would have proceeded toward the city and engaged the Spanish warships and batteries in that neighborhood. The point that causes speculation is that all news comes from Hayti, evidently by cable from Spaniards in Santiago.

Nothing has been heard from Madrid. This may mean that cable communication has finally been stopped.

All press reports agree as to the time of the beginning and ending of the bombardment, and on the fact that the Americans had secured an advantage that was valuable. Owing to the height of the hill on which Morro castle is situated the warships were unable to run close in shore, and had to stand off to pour in a more effective fire. They manoeuvred continually while firing. Some of the shells from the big guns went clear over Morro and landed in other fortifications.

### Press Reports Correct.

Washington, June 1.—Special—Officials who at first expressed doubt as to a battle having taken place have come to the conclusion that the press reports are correct. There is an inclination among some to believe that the encounter was brought about by the attempt of some of the Spanish vessels

to make a dash out of the harbor, either with the intention of giving battle or escaping to sea.

### The Spanish Version

Madrid, June 1.—Special—Minister of Marine Aunon has received word that the American squadron has been repulsed at Santiago.

Official despatches describe the American squadron as bombarding the forts at the entrance to the harbor, firing sixty shots. The forts replied and the Spanish cruiser Cristobal Colon went to the mouth of the harbor and found that the American ships were retiring. One American cruiser was disabled.

### Bears the News.

Cape Haytian, Hayti, June 1.—Special—The United States torpedo boat Porter arrived at Mole St. Nicholas harbor shortly after midnight, presumably with dispatches for Washington. She left on hour later.

### Spanish Battleship Sunk.

London, June 1.—Special—A Santiago dispatch received here says during the bombardment the battleship Texas ran into the harbor and sunk the Reina Mercedes.

### The Alphonso Captured.

Key West, June 1.—Special—The cruiser St. Louis has captured the Alphonso XIII. It was necessary to put seventeen shot in the Alphonso before she surrendered.

### Expectancy at Tampa.

Tampa, Fla., June 1.—Special—The arrival of Gen. Miles has created a flurry of excitement among the troops here, and a movement is expected hourly. No one knows, however, when the order to move will come. All prepara-

tions are complete, however, and there will not be an hour's delay. While nothing is positively known as to the destination of the troops it is taken for granted that they will be landed at or near Santiago. It is hinted, however, that two expeditions will start simultaneously, in which event Santiago will not be the only point of invasion.

### A Daring Undertaking.

Key West, June 1.—Special—The converted tug Wasp repeated Dewey's trick at Manila last Wednesday night by darting past the forts and over the mines at Santiago. She went within two miles of the city wharves, and was not detected. She found three Spanish cruisers. The Wasp's officers are sure they are part of Cervera's fleet.

### Gone to the Front.

Chattanooga, Tenn., June 1.—Special—The First Ohio, One Hundred and Fifty-seventh Indiana, Second New York, and First District of Columbia regiments left for Tampa this morning.

### Montejo a Gentleman.

Manilla, June 1.—Special—A large number of dispatches congratulating Dewey upon his victory miscarried, and came into possession of Admiral Montejó, the man he defeated. The latter courteously transmitted them to the American admiral.

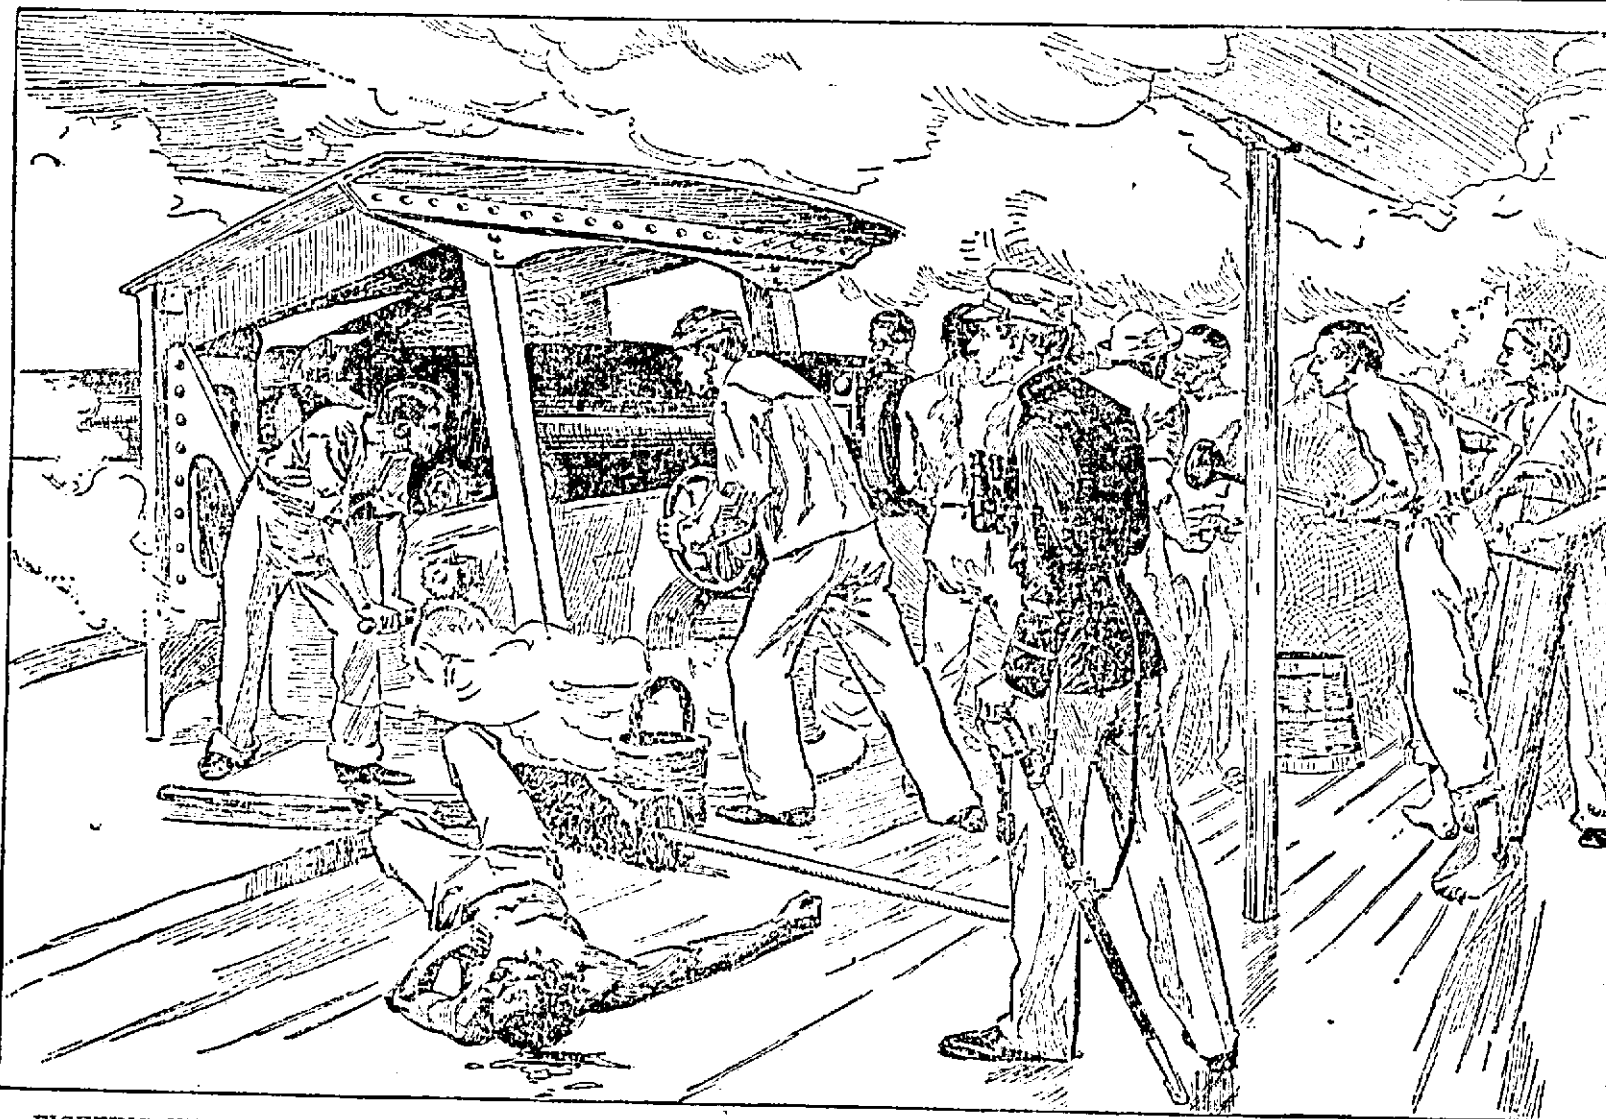

### Miles on Hand.

Tampa, June 1.—Special—Gen. Miles and party arrived here this morning.

Washington, June 1.—Special—It is positively stated that troops will embark at Tampa on Friday morning.

### The Castle Destroyed.

New York, June 1.—Special—A Port Au Prince cable says Morro castle was completely destroyed by the American guns during the Santiago bombardment.

FIGHTING UNCLE SAM'S BATTLE-SHIPS—IN ACTION—"LOAD!" FROM HARPER'S WEEKLY. AFTER A DRAWING BY T. DE THULSTROP.

Reproduced from Harper's Weekly. By Permission. Copyright, 1895, by Harper & Brothers.

The men who win the fight aboard a battle-ship today are the men who serve the guns. Upon their energy, determination, and skill depends the ultimate issue of the conflict. Of course, in the wonderful perfect and economical organization of the ship's company no man is wasted, and everyone contributes his share to the strength of the mighty combination. From the sharpshooters, turning the Maxim guns in the dizzy, swaying, fighting top, to the stokers who feed the furnaces in the black depths below, from the captain on the bridge to the messenger at his side, ready to carry the word when bell and speaking-tube are shot away—all have their important work to do, and the failure or faltering of any one of them would mar in greater or less degree the effectiveness of the great machine. But without the constant and well-directed fire of her heavy guns in a battle, a ship could not stay afloat, just as a man in a fist fight, however strong and clever a boxer he may be, cannot keep his feet unless his blows strike home. The old naval maxim is as true today as it was in the time of Nelson—"The ship must win whose crew stands longest by the guns."

It is man's work to stand by the guns on a modern battleship. The scene is well represented in the stirring illustration from Harper's Weekly, reproduced today. The smoke and sulphurous gases smother the breath and blind the eyes, the terrific heat tortures the half-naked bodies, the thunderous crash of the guns deafen the ears and numb the senses. But the gun-crews know that their comrades, from "the old man" down, are looking to them to do the fighting, and wounds and death and their shipmates falling striken about them are forgotten in the storm of the contest. It is the final test of years of training, and the men move like clock-work at the word of command. Perhaps to some of them comes a dim picture of their last gunnery practice on summer seas of the Roads, but the familar voice of the gun now rings out the orders with a

strange hard note of battle in it, and they pray that they have learned their lesson well, and that nothing goes amiss. Through the port they sometimes catch a glimpse of the havoc done on the enemy by a well-directed shot, and they cheer as well as they can in the stifling smoke and heat, and bend to their work again with renewed determination to carry to victory the flag of their ship floating proudly from the topmast point of the iron mast.

The marksmanship of our gunners long since aroused the envy of foreign navies, and now the Yankee sailors are proving that for discipline and devotion to duty they are no less to be admired than imitated.

## LENGTHY SESSION OF THE COUNCIL

### ALDERMEN TAKE IMPORTANT ACTION LAST NIGHT.

McLellan's License Is Revoked and Plans Are Adopted For Street Work Under the New Rule—Alderman Carpenter Speaks of the Protest—Other Business.

Acting Mayor Burnham presided at a long drawn-out council meeting last night, and the aldermen:

Revoked Alex McLellan's saloon license. Received the protest of South Main street property owners against macadamizing. Adopted plans and specifications for macadamizing North Main and Jackson streets. Dropped the suit against Alex McLellan's bondsmen.

The petition against macadamizing South Main street, which was published yesterday was read, received and filed.

Ald. Peters' order that plans and specifications for macadamizing North Main street from Prospect avenue to Fourth avenue and building a storm sewer from Pease Court to the river were adopted. Later the plans and specifications were received, adopted and ordered published. Final actions will be taken June 13.

Ald. Fifield's order for plans and specifications for grading and macadamizing North Jackson street from the south side of Wall street to Mineral Point avenue and Mineral Point avenue from Jackson street to the west side of Washington street, read and adopted.

President Burnham asked if Alex. McLellan or his representatives were present, and no one responded.

Carpenter talks of Streets.

Ald. Carpenter stated that he was glad to hear from the petitioners on South Main street. They were prolific in petitions. A few months ago they petitioned the council to put in a Nicholson pavement from Milwaukee street to South First. Later the same people petitioned the council to macadamize Main street from South First to Racine street, at the expense of the ward, which was done, unlawfully. The council had now adopted a portion of the uniform character which told how the street work shall be done and who shall pay for it. It was too late now to have justice done to the taxpayers who had paid for what work had already been done on the street, but the council was trying to get where they could do work in a just manner. They had to begin somewhere. He would like to have East street, south, macadamized, at the expense of the ward and every man in the council would like to have the street be lived on macadamized, but when they come to pay for it, they are willing to get along with the old street. No injustice was intended to any one. The work was being done this way at Madison and Rockford. If he stood with the Main

street petitioners he would be in the council with a petition to have the Second ward pay for the macadamizing of North Main street. He seconded the motion of Alderman Fifield to receive the petition and place it on file. Alderman McLellan's motion was then adopted unanimously.

The McLellan Matter.

When the McLellan matter was taken up Alderman Carpenter asked if it was not pretty late to take action.

City Attorney—"You must take action now or drop it."

Carpenter—"All right, I have nothing to do until 7 o'clock tomorrow morning."

McLellan—"We must take a vote and see how the council feels. There seems to be two sides to the matter. You must make a motion, Alderman Carpenter."

Carpenter—"I will second any motion the alderman from the Fifth will make."

A. L. Kavalego was appointed reporter. Court Clerk E. V. Whiton, Chief Hogan and Officer Appleby were sworn and testified in the matter. Alderman Rice's order revoking the license was then adopted, all voting aye except Alderman Carpenter, who was excused because he had acted judicially in the matter. Alderman McLellan voted aye, after explaining to a member of the council that he favored backing up the police.

The license committee recommended dropping the suit against McLellan's bondsmen. Adopted.

Street Commissioner Palmer told the council about some bad sidewalk and the matter was referred to the highway committee.

Alderman Blech asked for a report on the matter of aid to Oak Lawn hospital but Alderman Burnham said the committee would report at the next meeting.

The council then adjourned.

### HIS END IS NEAR AT HAND

Herbert W. Matthews is Falling Fast From Consumption.

Herbert W. Matthews, who has been on the sick list for some time past as the result of consumption, is now in a critical condition and his recovery is a matter of much doubt. During the past few days his symptoms have taken a turn for the worse, and in spite of all that loving friends can do he continues to gradually fall.

Mr. Matthews formerly conducted a restaurant on South Main street, and is a young man held in the highest esteem.

## ALL THE NEWS OF THE BADGER STATE

### GOOD PROSPECT OF A SETTLEMENT OF OSHKOSH STRIKE

Failure of the Effort to Combine the Paper Mills at Appleton—C. H. Everett Chosen Secretary of the Board of Agriculture—Prisoner Shot.

Oshkosh, Wis., June 1.—Yesterday was an important one as to the woodworkers' strike, from the fact that conferences were held between the manufacturers and workmen. In each case, the meetings were between single companies and former employees of that company. Just what the effect of these will be cannot be even predicted until all have been held, which will be the last of the week. Regarding them Arbitration Commissioner Jeardeau authorized the following statement:

"Definite arrangements were made for meetings between employers and representatives of their men. It was hoped these meetings could all be held today. It was impossible for two of the men to meet their firms before Thursday. Until these consultations are held, there is nothing to report. The board feel that both sides are to be congratulated upon the friendly spirit manifested by both employers and employees at the conference already held. The Palms Lumber company and the Williamson-Libbey company have not yet been seen."

### NO PAPER MILL MONOPOLY.

Scheme to Combine the Manufacturers Likely to Fail Through.

Appleton, Wis., June 1.—It is unlikely that the reported move to purchase the Wisconsin paper mills by the International Paper company, the eastern paper trust, will prove a success. In the first place the Wisconsin mills are now getting better prices for their product than the mills in the trust and it is unlikely that with this condition of affairs the manufacturers will accept a proposition they would not consider when the trade was unusually dull. As to the proposition that the trust purchase the water power of the state, it is said that the Green Bay & Mississippi Canal company, which controls the power on the Fox, would not sell for less than \$5,000,000, and this is an amount that the trust could not afford to put in this state. The success of the project of the trust is very doubtful.

## TRANSPORTS AVAILABLE.

Twenty-Six Thousand Men Can Be Sent Immediately Into Cuba.

Washington, June 1.—The military operations which actively commenced with the departure of about 20,000 troops from Tampa and Jacksonville have been discussed with much interest in the war and navy department.

The officers in charge of military matters at those southern ports advised the Washington authorities that there were twenty-five transports available for transportation to Cuba. These transports will furnish accommodations for about 86,000 troops.

The present determination is to utilize the army in connection with the navy. The officers of the latter service do not accept without demur the suggestion that the military force shall take the initiative in the capture or destruction of the Spanish fleet in Santiago bay, but representatives of both the army and navy have discussed the question thoroughly, and the conclusion reached was in favor of co-operation of the military and naval forces.

## Significant Order by Dewey.

London, June 1.—The owners of the British ship Genista, which has been loading at Manila, have received a cable dispatch, dated May 21, saying Rear Admiral Dewey has ordered the vessel to leave the port, from which it is conjectured that the American commander contemplated some action.

## More Defenses for Manila.

## Make It Public.

Publicity Counts, That's What the People Want.

Janesville experience on the subject.

Make it public. Tell the people about it. Gratitude promotes publicity. Grateful citizens talk. They tell their neighbors—tell their friends.

The news is too good to keep. Everybody should know about the little conqueror.

"Bad Backs" are numerous. So few understand the cause. And better still they are being cured. Lame backs are lame no more. Weak ones regain their strength. This is the everyday talk in Janesville.

Of Doan's Kidney Pills. Our citizens are making it public.

Mr. H. W. Rodgers of 210 S. Main St., carpenter, says: "My wife had kidney complaint and rheumatism for about five years. Of late the severe pain across her loins caused her a great deal of suffering. I learned about Doan's Kidney Pills and obtained them for her at the Janesville Co's. drug store. She used the remedy with gratifying results. As soon as she began to experience benefit her improvement was rapid and the aching pain across the loins was relieved permanently. She does not hesitate in saying that Doan's Kidney Pills proved a reliable remedy and she will be only too pleased to give her experience more fully to any lady calling who really requires advice."

Doan's Kidney Pills are for by all dealers. Price 50 cents. Mailed by Foster-McMillan Co., Buffalo, N. Y., sole agents for U. S. Remember the name, Doan's, and take no other.

All Who Use Whiskey

either as a medicine or a beverage should remember the fact that the vilest kind of "deceptions" are made up from common spirits and sold under the name of Whiskey, and even guaranteed as straight and pure by some druggists and dealers. If you are duped now by any such persons you have only yourself to blame. The U. S. government guarantees straight, pure, genuine whiskey.

Green River Whiskey.

IS THAT WHISKY. It is bottled under the direct supervision of the U. S. Government. The stamp of the nation covers every bottle of it, thus certifying its genuineness, age, proof and purity.

Be sure you get Green River Whiskey. Famed as the whiskey without a head-ache.

## A "FOOL ATTACK"

The Milwaukee Sentinel says: It shows how eager the anti-Scotfield faction is to find a pretext of discrediting the governor when it can find nothing better than the charge of being ostentatious in his management of the commonwealth's military affairs. Whatever Gov. Scofield is or is not, he is certainly not ostentatious in anything and he has not sought to make himself conspicuous since the war broke out. What he has done has been in the discharge of his duty to the nation and the state. As a soldier in the war of the rebellion he has naturally a keen sympathy with the young men who have enlisted and has wished to contribute to their comfort and welfare so far as lay within his power. To ascribe his actions to a selfish motive, as his enemies have done, is a shameful method of slander that is so out of place in his case that it will undoubtedly excite resentment against its authors. The more that the governor's conduct is investigated the more will it be found that he deserves well of the people by his behavior during the last few weeks and it is likely that the attack on him will serve to bring out many matters to his credit that might never have been generally spoken of otherwise.

## TO USE MELINITE.

A new explosive is to be tried on Spanish fortifications in Cuba. A Key West dispatch says: Commodore O'Neil, chief of ordnance, United States navy, has sent enough high explosive machinery to Admiral Sampson's fleet to mine every work on the north side of the island. Among the explosives sent is a case of the newest and most powerful of them all, melinite. By leaving out an ingredient melinite can be transported as safely as if it were flour. The omitted part of its make-up can be added just before the stuff is to be used. It has twelve times the power of gunpowder and four times that of dynamite. It is the most powerful explosive in practical use in the world. As over 500 pounds of this compound has gone to the front, there is some surprise among those who know of it as to how and where it is to be employed. Naval and army officers are much interested in the new explosive, and are anxious to know how it will act.

It would no doubt be an act of courtesy for President McKinley to appoint his recent rival for presidential honors to a brigadier generalship or colonelcy in the army, as democratic papers are urging; but would it not be an act of discourtesy and injustice prejudicial alike to the discipline and efficiency of the army, for him to exalt Mr. Bryan to such honors over the heads of men who have been trained in the art of war and have fairly earned promotion? Justice is deserving of as much consideration as courtesy, and is sometimes more praiseworthy, and as a rule, the papers that urge Bryan's appointment are the ones that howl loudest, if some civilian who has had military training in the past, is given a commission. Bryan has no more claim to a commission than Tom Watson or Arthur Sewell, or any other politician who never wore a uniform or carried a rifle in his life.

Commodore Schley will make no effort to engage the Spanish fleet in Santiago harbor, as the fleet can be captured without the loss of a single American sailor. Mines will be placed in the mouth of the harbor, and the Spanish held captive until hunger forces the hoisting of the white flag. The Spanish ships are worth \$15,000,000 and will be of such value to your Uncle Samuel in the future that to destroy them would be really too bad. Hence, Commodore Schley will play a waiting game.

The voice of no married man has yet been raised against the proposed action of American women in boycotting goods made in Paris. When it comes to making a patriotic sacrifice to please their wives, the American husbands will never be found lacking.

ary at the exposition. There must be something wrong with these young ladies for the Wisconsin newspaper men who recently visited the building saw nothing in the statuary line to shock their delicate sensibilities.

Adjutant General Charles R. Boardman will probably command the next regiment of troops sent out from Wisconsin. Under the second call but one regiment will be raised, the other men going to fill out the companies of the three regiments now in service.

The Spaniards have won another "great victory" at Cardenas—by blocking the mouth of the harbor so that American vessels cannot enter.

The New York contingent in Roosevelt's Rough Riders mean business, and have burned the bridges by sending their dress suits home.

Governor Scofield delivered the Memorial day address at Oconto—his former home—Monday and spoke most feelingly.

General Charles King may well feel proud of the fact that not one protest against his appointment has yet been heard.

And at last accounts Admiral Hall was still bottled up in the harbor at Knap, Wis.

Honor for Gen. "Low" Wallace. Washington, June 1.—"Low" Wallace, author of "Ben Hur," will doubtless be commissioned by the president a major-general of volunteers. ## NEW DEPOT FOR THE ST. PAUL ROAD

OFFICIALS LOOK OVER THE  
GROUND IN THIS CITY.

Need Of a New Passenger Station Is  
Fully Appreciated—The Work is  
Practically Determined Upon But  
No Date Is Fixed For a  
Beginning.

The Chicago, Milwaukee & St. Paul  
Railroad company is going to erect a  
handsome new passenger station in  
this city, and the time when the work  
will be undertaken is not far distant.  
The following prominent officials of  
the road arrived in the city this morning  
on a special train consisting of  
two palace cars and an engine: Gen-  
eral Manager W. G. Collins, Superin-  
tendent H. B. Earling, General Road-  
master J. B. Moll, and Assistant Gen-  
eral Superintendent D. L. Bush.

The main object of their visit to  
Janesville was to look over the situa-  
tion here, with the view to the erection  
of a passenger station. The officials,  
after inspecting the present structure  
from top to bottom, walked over to the  
handsome Northwestern station, where  
they seemed well pleased with all that  
met their gaze.

General Manager Collins stated this  
morning that with the erection of a  
new depot here by the St. Paul  
company, a structure that would  
accommodate the five incom-  
ing and departing trains that  
get here each morning would have to  
be erected. Just when such a new  
station would be built he was un-  
able to state; but he did not deny the  
fact that his company now had under  
contemplation such a move to be car-  
ried at no distant day.

The party, after remaining here an  
hour, departed for Mineral Point.

Omaha, June 1.—[Special]—The

consisted of the reading of a speech  
by Senator Allen, an address by Gov-

## PERIODS OF PAIN.

Menstruation, the balance wheel of  
woman's life, is also the bane of exis-  
tence to many because it means a time of  
great suffering.

While no woman is entirely free from  
periodical pain, it does not seem to have  
been nature's plan that women  
otherwise healthy  
should suffer so severely.

Lydia E. Pinkham's Vege-  
table Compound is the most  
thorough female regu-  
lator known to  
medical science.

It relieves the condition that pro-  
duces so much discomfort and robs men-  
struation of its terrors. Here is proof:

DEAR MRS. PINKHAM:—How can I  
thank you enough for what you have  
done for me? When I wrote to you I  
was suffering untold pain at time of  
menstruation; was nervous, had head-  
ache all the time, no appetite, that tired  
feeling, and did not care for anything.  
I have taken three bottles of Lydia E.  
Pinkham's Vegetable Compound, one  
of Blood Purifier, two boxes of Liver  
Pills, and to-day I am a well person. I  
would like to have those who suffer  
know that I am one of the many who  
have been cured of female complaints  
by your wonderful medicine and advice.

—MISS JENNIE R. MILES, Leon, Wis.

If you are suffering in this way, write  
as Miss Miles did to Mrs. Pinkham at  
Lowell, Mass., for the advice which she

## IN HONOR OF JUNE BRIDES.

Ante Nuptial Reception to Misses Suther-  
land and Norcross.

At their East street home this after-  
noon a delightful company was given  
by Mrs. W. G. Wheeler and Miss  
Mabel Jackson in honor of Miss Oora  
Sutherland and Miss Elizabeth Nor-  
cross, who are numbered among the  
June brides-to-be. The function was  
a most pleasant one, the rooms being  
handsomely decorated with flowers  
that were so arranged as to give the  
scene a charming effect. Refreshments  
were served, and the afternoon was  
delightfully spent.

## MILWAUKEE THE CAMP

Wisconsin's Second Quota of Volun-  
teers Will Rendezvous at the  
Metropolis.

Milwaukee, Wis., June 1.—[Special]—  
It is apparent from the request made  
for bids from all railroads centering  
in Chicago for transporting troops  
that Wisconsin's second all men will  
rendezvous at Camp Harvey and not  
Camp Douglas. The government offi-  
cials in asking for bids from railroads,  
request that rates be named from Mil-  
waukee for Wisconsin troops.

## IS STILL DOING BUSINESS

McLellan Is Not Daunted By the Council's  
Action.

Alexander McLellan, the South  
River street saloon keeper, was doing  
business at the old stand today just as  
if the common council had never taken  
any action last evening. Attorney W.  
G. Wheeler, in behalf of Mr. McLellan,  
secured from the circuit court of Rock  
county this morning a writ of  
certiorari, compelling the council to  
return to the circuit court of Rock  
county the entire proceedings in the  
McLellan matter in order that the  
court can see whether or not such  
proceedings are regular or otherwise.  
After much return is filed by the city  
the matter can be brought on for  
argument by ten days' notice.

Mr. McLellan is at present master of  
the situation. It is now City Attor-  
ney Burpee's move.

## ATHLETIC TRACK COMPLETED

Y. M. C. A. Grounds Are Now Ready For  
the Summer Events.

Physical Director Davis and men  
completed work last evening on the  
new track at Athletic park and it is  
safe to say it will compare favorably  
in size with any in this section of  
the country.

The track itself is one sixth of a  
mile around and twelve feet wide.  
The ground for its construction was  
first plowed up and then it was  
acresed and graded. Its cost has  
been a considerable and the association  
is to be congratulated in having such  
a track for athletic purposes.

## SUSTAINED A FRACTURED ARM.

Little Stanley Barbutt Had a Broken Arm  
and No One Knew It.

For two days Stanley Garbutt, the  
three year old son of Mr. and Mrs. O.  
H. Garbutt, of 164 Locust street, went  
around without letting anyone know  
that he was suffering with a fractured  
arm. The little fellow while playing  
with a companion on Sunday, was ac-  
cidentally thrown, which caused the  
fracture of his right arm between the  
elbow and wrist. The fracture was  
reduced yesterday by Dr. James Mills.

## ROLL OF THE DEPARTED.

husband and children from the old home  
stand where she has been a resident  
for fifty years, leaves one daughter to

## ATTEMPT TO MURDER.

A Stock Buyer Shot and Robbed by a  
Companion Near Hartford,  
Wis.

Hartford, Wis., June 1.—[Special]—  
A man named Garvin, who was trav-  
eling with a companion, looking for  
stock, was shot five times last night  
in the woods near Hartford, by his  
companion, who afterwards robbed  
him. Garvin was carried into the  
woods and left for dead, but he recov-  
ered sufficiently to crawl to a farm  
house and report affairs. Officers are  
now on the track of the would-be mur-  
derer.

## NARROWLY ESCAPED DEATH

Mrs. George Vanetta Swallows a Dose of  
Poison By Mistake.

The prompt arrival of Dr. E. F.  
Woods this morning with a stomach  
pump in hand was all that saved the  
life of Mrs. George N. Vanetta, who  
resides with her husband at 64 South  
Main street.

During the past few days Mrs. Van-  
etta has not been in the best of health  
and by a mistake this noon she swal-  
lowed a portion of the contents of a  
bottle of laudanum. The poison at  
once commenced to act and Mrs. Van-  
etta no doubt owes her life to the phy-  
sician's prompt arrival.

The dose taken was three-quarters  
of an ounce, which was sufficient to  
kill.

At 8 o'clock this afternoon she was  
considered out of danger, and her  
complete recovery is now only a mat-  
ter of a short time.

## WILL PLAY GOLF AT EDGERTON

With Expert Golfers.

Several of the members of the Mis-  
sissippi Golf club expect to leave the  
city Friday morning for Edgerton,  
where they will meet members of the  
Edgerton team in a friendly contest.  
This is the first out-of-town game of  
the season, and the home team are an-  
ticipating a good time, which is sure  
to await them on their arrival. The  
Edgerton team this year is said to con-  
tain several up-to-date golfers, and  
some interesting scores are looked for.

Drinking In the Camp.

Milton, Wis., June 1.—Editor Ge-  
zette—I think you were misinformed  
on some things that you had in an  
item in Saturday's Gazette about what  
Mr. Harry Hanson had written home  
concerning the drinking of liquor  
among the soldiers. In the first place  
Mr. Hanson has no parents here or  
other relatives. His letters were to  
friends. He wrote while at Mil-  
waukee that there was lots of  
drinking among the soldiers, probably  
while they were leaving the city. He  
said nothing about "bottles being  
found in the camp." That is some  
one else's story. I write this because  
Mr. Hanson's comrades might see this  
paper and be offended at him. Let's  
tell things as they are, and not add to  
them.

Milwaukee Carnival Week.

Carnival week at Milwaukee, June 27 to July 3, will rival the Mardi Gras at New Orleans. Those having the celebration in charge believe that the Wisconsin festivities will even be more attractive than those of the far famed southern city. At New Orleans there are only three evening attractions. At Milwaukee there will be six days and six nights of endless festivities. The grand pageant, illustrating the history of Wisconsin, will consist of twenty floats. These floats are rapidly nearing completion and are said by the contractor, who has devoted his whole life to this business, to be the finest he has ever yet constructed. Low fares on all roads and boats will be given for Carnival week.

May Cut French Cables.

Washington, June 1.—American warships will not hesitate to sever cable connections with Martinique and Hayti, cutting off communication with France, if Spanish agents in the French possessions persist in using it for the prosecution of business with Madrid. This was the substance of Secretary Day's reply to M. Eugene Aubert, first secretary of the French embassy, when the latter called at the state department to protest against censorship over dispatches from Martinique destined for France.

## NEWS FROM OUR NEIGHBORS.

## Emerald Grove

Emerald Grove, May 31.—Decorations day services were held here with as much if not more enthusiasm than in the past. In the forenoon the people of the village raised a beautiful steel flag pole 67 feet high. At two o'clock the children with their flags and wreaths were escorted by the drum corps to the flag pole and the stars and stripes ran up while the band played "Bally Round the Flag." After three cheers for the stars and stripes the company marched to the church, the entire seating capacity of which was occupied. M. D. Barless being chairman, called upon the choir to open the exercises by singing "America," after which prayers were offered by Rev. O. W. Davis. After another song by the choir and quartet Hon. John M. Whitehead, of Janesville, was introduced. Mr. Whitehead delivered an eloquent and appropriate address to the large and appreciative audience. After the address the children and citizens marched to the cemetery, and performed the services of decoration with order and impressiveness. At the conclusion of these services the company was escorted to the church dining hall, where the ladies furnished refreshments. The weather was all that could be desired, and the day passed pleasantly and profitably away to the satisfaction of all. Many thanks are due to Mr. Whitehead for his excellent address, and also to the Janesville Drum Corps for their valuable assistance. Rev. J. H. Berkoy, of Monroe, will deliver a series of three lectures at the Congregational church. The first lecture will be given on Saturday, June 4 and the other two on Sunday morning and evening, June 5. Mr. Berkoy's subject is the "Anti-Saloon League; What is it." Arthur Clark and wife, of Shopiere, attended services here on Sunday. R. Lilburn sold seven ponies to the Forepaugh show last Saturday and delivered them on Monday. Mrs. Asil Tene will go to Rockford Thursday, where she will visit her mother for a few days. Mr. and Mrs. Lester, of Jefferson, visited Charles D. Fletcher this week. Mr. and Mrs. Elias Heller, of Janesville, was with us on Monday and attended the Memorial exercises. Arthur Barless, of Chicago, was at home Sunday and Monday.

## TOBACCO BUYERS IN TOWN.

They Are Looking After the Prospects of the New Crop.

Prominent local tobacco buyers from Cincinnati are now in the city, and local dealers are just a little bit anxious to know what they intend to do in this section of the country. The gentlemen in question are John Sauer, L. Ballinger, and J. Hamberger, and they are registered at the Hotel Myers and the Grand hotel.

Messrs. Hamberger, Ballinger, and Sauer are well known in this city, they having visited this market on previous occasions.

## Modern Woodmen Excursion to Rockford

For above occasion the O. & N. W. Ry Co. will sell excursion tickets to Rockford and return. Tickets good to return until June 5. Trains leave Janesville at 7:30 a. m., and 8:25 a. m. Fare, 97 cents.

## Outing for June.

Breezy, reasonable and nicely illustrated, Outing for June is an excellent number, of interest to readers of varied tastes. Leading features include "Cupid on Wheels," a complete story, by Caroline Shelley; "The Yale Corinthian Yacht Club," by Frederick Conoley; "Canadian Golf," by John P. Roche, and "The Atlantic Yacht Club," by A. J. Kenesly. In "A People's Playground," Ed. W. Sandys pleasantly describes the Muskoka Highlands, while stories of baseball, bluefish, egg hunting in Alaska and other interesting sketches lend the needed variety to a most acceptable number. The editorial and record departments are up to date and complete.

## Shoe Jubilee.

Through the entire month of June we make the stupendous offer of choice of any shoes in the house for \$2.98. Never before in the history of bargain sales has an offer equal to this one been given. The stock is new, all bought this spring; the styles are correct in every way, the assortment is perfect. Shoes that sell as high as \$5 and are worth it, all go at \$2.98. The event is not for one day or week, but a solid month. We want to increase our already large business; we want to impress upon the minds of all shoe buyers the fact that ours is really the only real shoe bargain house in Southern Wisconsin. Come any day, and if you can't come to us, drop us a line. Brown Bros, east end of bridge.

## The Great Exposition at Omaha—Low

The Trans-Mississippi Exposition at Omaha opens June 1, and closes November 1. For the opening day the Chicago, Milwaukee & St. Paul Railway will sell round trip excursion tickets at half fare on May 31, good for return until and including June 6. Aside from above rate and date ordinary excursion tickets at a fare and a third for the round trip and good for 30 days will be on sale from June 1 to October 30, 1898. We have in the past carried on one day special sales at the one price for pick from stock, and these events have been looked upon as generous bargains. People have taken advantage of them. They were worthy of large patronage. The sale we have inaugurated for this month contains all the elements that made the one day sales so popular, with the addition of almost unlimited time.

### Not Merely One Day or One Week, but a Solid Month of Shoe Selling That Has Never Seen Its Equal.

Our plan of large sales and small profits is taking well. We intend it shall become fixed in the minds of all Shoe buyers. Profits will be knocked sky high through June, but our reputation as bargain givers will be better established. We have never yet disappointed; no more will we this month.
